His Mistaken Idea.
"But, my dear," remonstrated Mr. Meekun, "there's a good deal to be said on both sides."
"No, there isn't," answered his spouse. "I've told you what I think about it, and that's all that is going to be said."—Chicago Tribune.

The Reason.
Ethel—What did you say to papa last night? Ferdy—Nothing. I was so scared that I didn't open my mouth. Ethel—Oh, that accounts for it! He said you impressed him very favorably!—Home Notes.

VICTIMS OF TORNADO

NINETY-FIVE PERSONS KNOWN

TO HAVE BEEN KILLED AT
SNYDER, OKLA.

OVER A HUNDRED MORE HURT

STATED THAT FULLY TWENTY
PER CENT OF THE INJURED
WILL SUCCUMB.

Snyder, Okla., May 12.—Ninety-five persons are known to be dead, a dozen are missing and given up for dead and 150 more are injured, seven fatally, resultant from the tornado which tore through this vicinity at night.

Gruesome and heartrending scenes met the eye on every side. Rescue work is proceeding as swiftly as possible. Every able-bodied man, woman and child is exerting every effort for the care of the dead and injured.

Aid is being sent from neighboring towns. From Oklahoma City went 100 men to dig graves and seek the dead still in the ruins and also a dozen undertakers with 100 coffins. Offers of financial assistance have come from numerous cities.

Governor Ferguson of Oklahoma has issued a proclamation calling attention to the needs of the stricken town. To add to the general confusion and distress after the tornado had passed, fire broke out and burned up all that remained of the buildings on one of the business blocks. So far it has not been possible to find out whether or not any bodies were cremated, but it is highly possible that such is the case.

An unidentified woman was picked up dead, having been pinioned to the ground by a scantling which entered her left eye and came out through the back of her head.

Clarence Donovan, a railway engineer, and Miss Nina Fessenden were to have been married at night, but had just postponed the nuptials until the following morning. Both were instantly killed.

Fred Crump, a boy, had started to a cellar when a flying timber struck him and severed his head from his body.

Debris Carried Many Miles.

Debris was carried to the northeast as far as Cooperton, twelve miles, and it is reported that there are more of the fragments of homes at that town and in that vicinity than are in the tornado path at Snyder.

About seventy-five head of horses and cattle were killed on the townsite. A committee has been set to work to remove carcasses.

The mayor of Snyder is having much trouble arranging for the burial of the dead. The confusion is great owing to the fact that there remains a number of unidentified bodies at the morgues. There is much suffering, owing to lack of provisions and places to stay. What houses remain in the town are in bad condition and are unsafe for habitation. Besides there is not room enough to care for the homeless. Bedding and wearing apparel are both lacking and despite the effort to succor the unfortunates they are still in a pitiable condition. Many of the wounded could not be cared for or given medical aid until 9 a. m. and by that time their wounds were aggravated.

Dr. York of Hobart, who was active in relieving the suffering, says that twenty per cent of the injured will die.

The havoc wrought by the tornado is complete. Out of a town of 1,000 people not more than a score of houses are intact, while two-thirds of the buildings are totally wrecked.

Storm Formed Near Texas Line.

The storm formed south of Oulstee, near the Texas line, and took a northeasterly course through a well settled section. At 8 o'clock it was observed by the people of Snyder, but the usual funnel shaped formation was lacking, and though the roar was plainly heard for some time before the storm broke, many were of the opinion that it was a hail storm. Within a few minutes the sky became suddenly dark and a terrific downpour of rain began, lasting for several minutes, when it stopped almost as suddenly as it had commenced. A few moments after this an ominous calm followed and then the tornado struck, tearing buildings to pieces as though they were made of paper.

Many people who had thought to take advantage of the calm to seek refuge in cellars were caught in the streets and between buildings, where some were lifted high in the air and dashed to the ground as though hurled from a catapult, while others were struck by flying debris and beaten almost beyond recognition. Those who remained in their houses fared no better in the path of the tornado, which swept across all excepting a few blocks in the southeastern corner of the town. The frame structures collapsed like eggshells, burying occupants under the debris, killing, crushing and maiming.

Six of the eight hotels were torn to

pieces, burying many in the wreckage. North of the railroad track, where many cottages stood, none is left and there the wreckage is mostly carried away.

In a few moments it was all over and the air was filled with shrieks of injured, mingled with cries of those who had escaped and were seeking lost ones. Within a short time messengers were dispatched to Mountain Park, two and a half miles away, where the news was sent by telephone to Hobart. Physicians and nurses were called for and relief trains were made up at Mangum, Hobart, Chickasha and Lawton and hurried to the scene by the railroads. Many of the able-bodied survivors in Snyder were working heroically all through the night amidst the most heartrending scenes. A building was utilized for a temporary hospital and another used as a morgue. The latter, a dry goods building, presented a gruesome appearance when day dawned with the corpses lying tier above tier on the shelves. The search for bodies continued during the day and at 3 p. m. ninety-five had been recovered. Others are being searched for, which with the casualties reported from the country will probably raise the death list to above 100. Several fatally injured will raise the list of casualties.

The most pressing need is finances. Relief committees were formed during the day and appeals were sent out for funds.

The property loss is variously estimated at \$400,000. Two hundred residences are demolished and about half the business buildings are a total loss. The remainder are more or less damaged.

Books Blown Sixty Miles.

Port Cobb, Okla., May 12.—Many law books, letters, etc., were picked up here, having been blown here from Snyder, a distance of sixty miles.

THREE TORNADOES IN IOWA.

Many Buildings Wrecked and Two Persons Injured.

Spencer, Ia., May 12.—A tornado late in the day destroyed Harmony Church, seven miles east of here in Clay township, partially demolished a schoolhouse, blew down a large barn and fatally injured the owner, H. H. Holberg. Moving northeast, the storm wrecked a number of other buildings. A cyclone passed over Hills, Ia., striking the eastern part of town. The storm demolished everything in its path, destroying a number of barns, a creamery and a bridge.

A tornado at Centerdale destroyed several houses and severely hurt G. G. Wright.

GOTTSCHALK TO HANG

EXTREME PENALTY OF THE LAW

WILL BE PAID BY THE ST.
PAUL MURDERER.

St. Paul, May 12.—Edward Gottschalk, aged thirty-four, who recently pleaded guilty to an indictment charging him with the murder of Joseph Hartmann, his alleged accomplice in the killing of Christian H. Schindeldecker, a local butcher, appeared before Judge Lewis in the Ramsey county district court and was sentenced to be "hanged by the neck until dead."

Governor Johnson will fix the date of Gottschalk's execution, which will probably take place some time in September.

Before pronouncing sentence Judge Lewis referred to the crime as "brutal and unmitigating in circumstances" and said he could find no reason for withholding the extreme penalty of the law. He adverted to the repeal of the law under which the Younger brothers had been sent to the state prison, escaping the death penalty, and said that under the present statute the mere plea of guilty can be of no avail.

Gottschalk met his fate without a tremor and after sentence was pronounced walked back to the jail through a crowd of several thousand people, who lined the street from the courthouse to the county lockup, more than a block away.

KOCH CASE NEARLY ENDED.

Murder Trial at Mankato Drawing to a Close.

Mankato, Minn., May 12.—The rebuttal testimony in the trial of Dr. George R. Koch, the alleged murderer of Gebhardt, now is completed, and Mr. Childs of the state during the afternoon began his final argument for the prosecution. For two hours Mr. Childs delivered an eloquent resume of the state's case, and he will continue the argument at the opening of court in the morning.

In all probability Mr. Childs will finish his address some time before noon and the defense immediately will begin its final argument, which will be delivered by Attorney Brown. It is not expected that the argument will last more than three or four hours, in which event the case, after the court's charge, will go to the jury in the evening, and it is commonly expected that a verdict will be secured before Sunday.

PEACE SURE TO COME

PRESIDENT ROOSEVELT IS EXPECTED TO END THE WAR IN THE FAR EAST.

SPOILED BY ROJESTVENSKY

APPEARANCE OF HIS FLEET IN CHINA SEA ENDED NEGOTIATIONS FOR PEACE.

London, May 12.—The Daily Telegraph's Tokyo correspondent says he knows for a fact from official sources that peace between Japan and Russia was nearly concluded when the unexpected appearance of the Russian Second Pacific squadron in the China sea revived Russia's hopes. "Even now," the correspondent adds, "nobody here doubts that peace is coming through President Roosevelt's offices, he having learned that Russia desires to end the war and having ascertained the terms which would be agreeable to neutral powers."

Recent councils of Japanese statesmen settled the principles for a renewal of the Anglo-Japanese alliance which will involve a new and definite policy with regard to the future of Manchuria and Korea.

IN REPLY TO JAPAN'S CHARGES.

Semi-Official Statement Published in France.

Paris, May 12.—A semi-official statement from high sources was published during the day giving France's position in reply to Japan's charges of French violation of neutrality.

One of the headings says: "Japan has done in the Philippines and the Dutch East Indies the same as she accuses France of doing in Indo-China."

The reasons are set forth as being: "First—The French relations were not set forth especially for the present war, but existed previously, without protest, from Japan."

"Second—France has exercised her sovereignty to fulfill the regulations not only to the full letter, but has also adopted special measures to maintain absolute impartiality."

"Third—The only direct purchase of coal by the Russians was at Algiers, where the quantity was insignificant. The main stock of coal was purchased in Germany and England without protests."

"Fourth—Any advantages which the Russian Second Pacific squadron obtained by anchoring off the French coast were equally open to the Japanese if they had taken the offensive instead of awaiting the Russians."

SINCE KAMRANH BAY INCIDENT.

France Has Instructed Officials of Indo-China to Observe Neutrality.

Tokio, May 12.—The following announcement was made by the Japa-

nese foreign office during the day:

"Since the Kamranh bay incident the French government has instructed both the civil and military officials in Indo-China to maintain a close watch on the coast of French territory and to warn belligerent ships not to enter French waters."

"When it was reported that the Third Russian squadron (commanded by Rear Admiral Nebogatoff) was approaching French waters the French government again instructed the naval authorities to maintain a close watch and take effective measures with all their power to prevent a violation of neutrality and it simultaneously notified the Russian government."

"The French government has notified the Japanese legation at Paris that it has received a telegraph report that no Russian ships were sighted off Honkoku bay May 9."

RUSSIANS LOST HEAVILY.

Three Hundred Put Out of Action by the Japs.

Tokio, May 12.—The following telegram from army headquarters in Manchuria, was officially given out during the day:

"On the morning of May 9 the enemy, consisting of two regiments of infantry, five squadrons of cavalry and one battery or artillery, made an attack in the vicinity of Yngocheng from the direction of Nanshancheng-tsu."

"At 2 o'clock in the afternoon the enemy made a resolute attack. Under the cover of the artillery the infantry advanced to within 100 meters of our line, whereupon our garrison assumed the offensive, attacked and dispersed the enemy."

"The enemy left 60 killed and 160 wounded on the field. Besides these,

soldiers dressed in Chinese clothing carried away many killed and wounded. The enemy's losses are estimated at 300.

"Our casualties were 1 killed and 50 wounded."

Artilleryman Killed by Policeman.

Newport News, Va., May 12.—Artilleryman Dowey, a member of the Sixty-eighth company, heavy coast artillery, was killed at night in Phoebus by Police Officer Phillips while resisting arrest. Intense excitement prevailed among the soldiers and the officer commanding at Fort Monroe ordered out a company of soldiers. Phoebus is under martial law. Phillips is under arrest.

IN FAVOR OF RECIPROCITY.

American Stockgrowers' Association Adopts a Resolution.

Denver, May 12.—By resolutions adopted during the day the American Stockgrowers' association pledged itself to "work in harmony with all live stock associations, whether local, state or national." Resolutions were adopted thanking President Roosevelt for his fight for equal rights to all at the hands of the railroads, declaring that the present railroad law is inadequate and should be strengthened, condemning the private car line system and demanding reciprocity.

Valuable Statue Stolen.

Florence, Italy, May 12.—A highly prized statue of the Madonna, attributed to Delta Robbia, has been stolen from a private chapel at Ponte Delolli, a suburb of this city. The statue was valued at \$17,000, and weighed 500 pounds.

—Scores of Citizens Prove it.

After the reader has read the public statement of this representative citizen of Brainerd given below, he must fairly, squarely and honestly come to this conclusion: "A remedy which cured years ago, which had kept the party in good health since, can be relief upon to perform the same work under similar circumstances. Read this:

Chris. Hanson, of 1412 E. Oak St., Brainerd, Minn., says: "The lapse of time has not diminished my confidence in Doan's Kidney Pills which I recommended in a testimonial given in 1898. As I stated at that time, we found this remedy to be a sure cure for children afflicted with weakness of the kidneys. Our boy had been troubled in this way at night, but Doan's Kidney Pills which we got at H. P. Dunn & Co.'s drug store, gave him prompt and effective relief. Since then I have used Doan's Kidney Pills myself for backache and they banished my trouble in a short time."

WILL NOT BUILD THIS SUMMER

Dr. J. L. Camp Returned from St. Paul Where He Met With Sanatorium Commission

NOT ENOUGH MONEY AVAILABLE

To Warrant Commission to Start in Building this Year—Farm House to Be Built

Dr. J. L. Camp has returned from St. Paul where he went to attend a meeting of the commission appointed by ex-Gov. Van Sant to look into the feasibility of establishing a sanatorium at Walker for the treatment of consumptives.

The commission met with the state board of control and it was finally decided not to start in building this year on the site selected at Walker for the reason that all the money appropriated by the legislature is not available at this time. The legislature appropriated \$50,000 for the buildings and there is something like \$16,000 still in the treasury, but the \$50,000 will not be available until next year, \$25,000 August 1, 1905, and \$25,000 August 1, 1906.

It was thought that it would not be advisable to start the work unless it could be pushed to completion without having to wait for funds.

It was decided, however, to build a farm home this year and a man will be put on the land and such improvements as clearing and getting the land in condition will be taken up.

Loss of Sleep Means Loss of Mind.

Inability to Sleep is Nature's Plain Warning of an Exhausted Nervous System.

DR. A. W. CHASE'S NERVE PILLS

When you overwork any muscle or set of muscles they tire and must have rest. What is true of muscle is doubly true of the brain, as from it emanates all power to work, to act, to think. The brain is full of little cells that during the waking hours are never quiet in their efforts to furnish to every organ the power to do its duty. Rob these little cells of their rest at night—keep them at work all the time, and soon they tire, refuse to act, fail to generate nerve force and the system goes to ruin. Bromides, sedatives, opiates only hasten the end—they do not build up, they tear down. The true remedy, the only cure, lies in Dr. A. W. Chase's Nerve Pills, a medicine that revitalizes, reinvigorates, and by properly nourishing these overworked little cells, give them rest and quiet and enables one to sleep naturally and easily again.

Mrs. Fred Wholeben of Glade Run, Warren, Pa., Says: "I was induced to use Dr. A. W. Chase's Nerve Pills for excessive nervousness. I was so nervous I could not bear a noise or much talking. I was very forgetful—my mind seemed dull. I was listless and tired all the time. The result of the use of the box I got was remarkable. They toned up the nerves and system generally and I work well again, am strong—my mind is clear and noise and talk no longer bother me. I am much pleased with the pills and can recommend them highly to anyone who feels as I did." 50 cents a box at dealers, or Dr. A. W. Chase Medicine Co., N. Y. Portrait and signature of A. W. Chase, M. D., on every package.

Ralph Waldo Emerson's Stove.
Ralph Waldo Emerson was a man of rare integrity and very particular about small things. One day a new cooking stove had been provided for his house, and, although the stove came very highly recommended, it proved thoroughly unsatisfactory and most provoking, as it did everything but what it was expected to do. After awhile the family was in despair, and some one suggested sending it to auction.

"What!" exclaimed Emerson. "Transfer our own perplexity to another pair of shoulders? No, never, unless the stove is labeled 'Imperfect.'"

And so "Imperfect" it was labeled and sold at a great discount.—Boston Herald.

GRADUATING

CLASS OF 1905

Large Number of Well Known Young People Will Graduate from High School!

EXERCISES TO BE HELD JUNE 6

Twenty-one Members of Class of 1905 Will Receive Diplomas at that Time.

Commencement exercises of the Brainerd high school will be held at the Park opera house June 6. The class contains twenty-one members to graduate providing all members acquit themselves creditably in the state examinations to be held in the Washington school during the entire week beginning Monday, May 29.

To graduate from the Brainerd schools is an honor in which any student may well take pride. The general character of the work this year has been commended by the state inspector of high schools. Not long ago it was the exception for the students to be successful in the state examinations, however that stage has passed and we learn from the school authorities that it is the exception for students to fail. It is also learned that as a rule the members of the present class have been regular in attendance and diligent in their work. Both of these elements are required to make a good school, and the community as well as the class are to be congratulated upon the good showing made. Any city is rated somewhat by the standing of its schools and our citizens may well take pride in the class this year. It should be an incentive to younger students and to parents to do everything possible to take advantage of the facilities offered. The following are the members of the class:

W. J. WEDDELL SELLS OUT

A. Frolick, of Montgomery, Minn., Arrived in the City Yesterday and Closed Deal with Well Known Baker

W. J. Weddell has sold his bakery business on Front street to A. Frolick the deal having been closed last evening. Mr. Weddell has been dissatisfied with Brainerd for some time and has been looking for a buyer and Mr. Frolick was the first man along to pick up the snap.

The entire business, including the stock, delivery wagons, etc., etc., was sold. Mr. Frolick comes to Brainerd with a reputation as a baker second to none. He was highly recommended by a traveling man who sometimes makes this territory and it is confidently believed that he will make a big success in this city. Mr. Weddell has not definitely decided what he will do, but it is quite positive that he will leave the city and may go west.

CAUGHT WITH BASS IN POSSESSION

Game Warden Saunders Lands on Chris Fritz and Warrant is Out for C. Clarke

HEARING HAS BEEN POSTPONED

Men Were Coming to Town and Ten Fish Were Found in Their Possession

Deputy Game Warden Saunders was camped near the Mississippi river bridge yesterday afternoon laying for those who are guilty of an infraction of the fish law.

He was awarded for his vigil for he discovered two men coming to town with ten fine black bass. They were Chan. Clarke and Chris Fritz. In the melee Clarke got away but Fritz was taken into tow and was taken before Judge Warner yesterday afternoon. The hearing was continued for one week and Fritz was obliged to put up a \$100 bond for his appearance at that time.

A warrant was secured and Clarke will be brought to the city late this afternoon to answer to the charge of violating the fish law. Bass fishing is not legal until Decoration day. Fritz claims that he had nothing to do with the fish.

FOURTH OF JULY CELEBRATION

Some Talk of Arranging for a Rousing One This Year in Brainerd

THE REAL OLD FASHIONED KIND

Will be Advertised and People Will be Brought Here From Entire County

It is more than likely that Brainerd will have a rousing Fourth of July celebration this year, if present plans do not miscarry, and the small kid will be given the opportunity of his life to fire off the proverbial fire cracker, climb the greasy pole, etc., etc.

The matter was discussed somewhat at the meeting of the Commercial Club a few nights ago and it was the general opinion that it would be a good thing and that Brainerd should have a corking celebration. Since then the matter has been generally discussed among the business men and it is conceded that something should be done and that at once. The matter will be taken up in a day or two and some plan formulated.

There will be a Northern League game here in the morning, in the afternoon there could be all kinds of sports and in the evening a grand display of fireworks.

Side Talks by the Office Boy.

Did you ever go to see your girl, stay a little later than usual and betaking a short cut down a side street when, first thing you knew, you'd be looking down the business end of a big pistol

and you'd be told to shut up and put up and when you'd tell the guy you had nothing to put up but your hands, have him go through your pockets and take your car fare and your watch and after you'd reached home and gone to bed and got to thinking about it, get so nervous you couldn't sleep, and count a hundred, then say, "forget it" a hundred times, and when you finally did get to sleep, have the folks call you for breakfast and reach for your watch to see if they hadn't made a mistake, and find it gone, and then either have to tell the folks all about it or strike them for car fare. If I knew the number on my watch as well as I do our store number, I'd be all right. Our Front street number is 616. Just come in and watch us do business. We don't have to hold folks up to get their money. They just come in with the three dollars in their hands and ask for a Lanpher hat. H. W. LINNEMANN.

Crookston Don't Pay.

According to the Crookston Journal that city will be dropped from the theatre circuit another year on account of poor patronage. The Journal says:

"Con Walker, the manager of the breadbasket theatre circuit, which includes Winnipeg, Grand Forks, Fargo, Crookston and Brainerd, has not been very successful with his experiment at Crookston this year and as a result may drop the city from the circuit. Crookston has never been a very good show town and the fault was laid at the door of Mr. Walker by the management of the companies. They argued that if he would give the city first class attractions and an experienced manager the results would be better and the Crookston house would not continue to prove a loser to the manager and the companies as it too often had been in the past.

"Mr. Walker conceded the point and put on the best attractions he could get and hired a high priced experienced manager. While Mr. White has done all that he could, with one or two exceptions the houses have been smaller this year than last or since the house was taken into the circuit.

"It is quite likely that the city will be dropped from the circuit if something is not done in the way of a better opera house and if people do not patronize productions better."

BUYS OUT JOHN TENGLUND

George Sargent Buys Out The Tenglund Bottling Works and Beer Depot and Will Take Charge at Once

John Tenglund has sold out his bottling works to George Sargent and the latter will take charge in a few days. Mr. Tenglund is also agent for the Duluth Brewing and Malting company in this city and this business will also pass into the hands of Mr. Sargent. Mr. Tenglund has been a resident of Brainerd for a few years only, but during that time he has made many friends who will regret to learn that he is to close out his business.

Mr. Sargent is very well known in this city. He was formerly in business here and was afterward chief of police. He has a large circle of friends and in this business he should succeed from the start.

NORTHERN LEAGUE

Just one week from tomorrow and the first league game will be played in Brainerd. Just think of it. That is enough to make a real genuine fan "yump with yoy."

Frank Green, the pitcher signed with Keokuk, Ia., is not for that town, but will be returned to Winnipeg in the Northern League as they had a prior claim on him.

The Maroons at Winnipeg won their first game of the season against the Manitoba college team.

The report that President O'Brien, of the American Association, has signed Oliver O. Anderson, of Willmar, Minn., as the fifth umpire is not so. Anderson is one of the men signed by President Kent, of the Northern League, and will umpire this year.

The Duluth White Sox lost their first game on the present trip, in the Copper country, in a five-inning game played with the Calumet nine, in bitterly cold weather.

The "Twins" will play two games with Chippewa Falls, tomorrow and Sunday. Manager Reilly will probably go to Chippewa Falls tomorrow. The team will then come to St. Cloud for a few days before the opening game which will be next Thursday at St. Cloud.

TWENTY KNOWN DEAD

MORE THAN A HUNDRED OTHER PERSONS HURT IN WRECK AT HARRISBURG, PA.

TERRIBLE SCENES ENACTED

HELPLESS RESCUERS SEE MANY OF THE INJURED DIE IN THE BURNING DEBRIS.

Harrisburg, Pa., May 12.—Twenty persons are known to be dead and more than 100 others were injured in the railroad wreck and dynamite explosion which occurred on the Pennsylvania railway in the southern part of this city. That not more persons were killed is considered remarkable by the Pennsylvania officials, as a full boxcar of dynamite exploded directly at the middle of the heavy express train.

The train carried a number of prominent persons and most of them escaped with only slight injuries. Among those on the train were Mr. and Mrs. James R. Tindel of Pittsburgh, the latter the daughter of United States Senator Knox; Mrs. A. J. Barr, wife of the proprietor of the Pittsburgh Post, and her two daughters; Victor L. Crabbe, son-in-law of Robert Pitcairn of Pittsburgh, and Samuel S. Schubert, a prominent theatrical manager of New York. Mr. Crabbe died in the Harrisburg hospital at noon a few minutes after his father-in-law reached his bedside. Mr. Schubert was reported to be badly injured.

The wrecked train was the second section of the Cleveland and Cincinnati express leaving Philadelphia at 11:05 p. m. It consisted of a combination baggage and smoking car, one day coach and six sleepers.

The official version of how the wreck occurred is as follows:

About 1:40 o'clock the engine on an eastbound freight train was flagged by the crew of a shifting engine ahead on the same track. The engineer quickly put on his air brakes and the train, an unusually long one, came to a sudden halt. The strain on the air valves was a severe one and a connecting air hose in the middle of the train blew out. This caused the middle of the train to "buckle" and the damaged cars fell over on the passenger tracks.

"Side-Swiped" the Wreck.

Just as this happened the Cleveland express came thundering up and "side-swiped" the wreck. The express was stopped within its own length and the third sleeper was opposite the wrecked cars. Before anyone could leave the passenger train, which was not badly damaged, a few slight explosions occurred and then there was one great flash and roar that shook the earth. The whole affair occurred within a period of a few seconds.

A scene of horror followed the explosion of the dynamite. The passenger cars and some of the freight cars instantly took fire.

As the reverberation of the terrific explosion died away across the Susquehanna river the agonizing cries of the injured could be heard. Men and women came tumbling and climbing from the car windows and crawled from under the wreckage. No one for the moment seemed to know what to do and many of the terrified passengers ran wildly about the fields on the north side of the railroad or waded into the shallow waters of the river on the south side. Realizing their safety and the danger still threatening others, the frightened passengers turned in and began the rescue of the living.

As they approached the wreck another explosion occurred which sent them scurrying away. Fearing that the entire freight train might be loaded with dynamite, no one dared go near the wreck. Finally the railway men who knew the contents of the burning freight train led the way and the uninjured passengers followed.

Work of Rescue Slow.

The work of rescue was at first slow and it seemed as though the flames would envelop the entire express train before those who were pinned beneath the heavy wreckage could be freed. Everywhere there came cries for help and the frantic rescuers worked with willing hands. Scores of those who were trapped in their sleeping berths or pinned under wreckage were taken out and laid in the field badly hurt. The advance of the fire drove the rescuers back as they were about to take others from the wreck and the unfortunate men and women, were soon enveloped in the flames. The cries of the dying were heartrending, but nothing could be done for them.

An alarm of fire was sent in, but when the firemen reached the scene the flames had done their work. The entire train was consumed by fire.

After the victims in the wreck were beyond human aid, more attention was paid to the injured, who presented a pitiable sight as they lay in the field or on the banks of the river. With the firemen came a corps of physicians from the city and the work of attending the injured began in earnest. As quickly as they were temporarily relieved of pain from burns or other injuries they were placed on special trains and trolley cars and hurried to the hospital here.

Several hundred railway laborers were on the spot within an hour and by daybreak their number had been increased to 1,000. It was a gruesome

task for the railroad men. Not one whole body was found in the wreck. Either an arm or a leg or all four limbs were burned off the trunk and in several cases only portions of the trunks were found. Ten charred bodies were found under one Pullman car. It is the belief of the railroad officials that if the explosion had not occurred there probably would have been no loss of life.

The dead were taken to undertaking rooms here, which were transformed into a temporary morgue.

Coroner Krouse empaneled a jury which viewed the bodies in the afternoon. He will begin taking testimony during the day.

Among those treated at the Harrisburg hospital was A. A. Crane of Minneapolis.

EXPRESS THEIR SYMPATHY.

Delegates to Railway Congress Condo- late With Victims of Wreck.

Washington, May 12.—The International Railway congress during the day unanimously adopted resolutions expressing sympathy to the injured, the families of the deceased, the railway company and the employees involved in the railway accident at Harrisburg. The resolutions were offered by Sir Armitage of England.

The American Railway association were hosts at a banquet at night at the New Willard, at which over 300 of the delegates were guests. Speeches were made by Sir George Armitage, Baron Speck von Sternberg, the German ambassador; Postmaster General Cortelyou and J. M. Baldwin. A message of greeting was received from Emperor William of Germany.

LITTLE DISORDER OCCURS.

Strike Situation in Chicago Unmarked by Rioting.

Chicago, May 12.—But few attacks were made upon the drivers of delivery wagons during the day and with the exception of one colored man who was knocked senseless by a stone, and John Barnard, a union teamster, who was shot in the thigh by a colored man, now filling Barnard's position, nobody was injured.

The most important part of the strike was the examination of witnesses before Master in Chancery Sherman, who is taking testimony relative to the alleged violation of the federal injunctions granted in favor of the employers' association and of the seven express companies.

Adolph Pfeil, for eleven years an employee of the United States Express company, but now a striker, refused to answer questions on the ground that he might incriminate himself. The queries put to him by the attorney for the employers' association covered the grounds of the cause of the strike and whether or not the officials of his union ordered or advised him to strike. To all of these questions Attorney Leboskey, for the defendants, made strenuous objections with the result that there occurred between him and Attorney Mayer, acting for the plaintiffs, numerous altercations, in one of which Attorney Mayer declared that in stating matters to the master Attorney Leboskey had been unfair, almost to the point of dishonesty.

The wrangles were finally terminated by the statement of the master that the matter would be certified to the federal court as to whether or not the witness had proper grounds on which to base his refusal to answer questions. Attorney Mayer said that he would not take the matter before the court immediately because he expected similar occurrences in the future and he would present them all at one time.

Charles Brown, an employee of the United States Express company, testified that he had been beaten by strikers and Edward Buckley, a union striker, told of being ordered to strike by the teamsters' union. The hearing will be continued.

PILGRIMS IN REVOLT.

South Dakotans Stranded in Africa Want to Return Home.

Sioux Falls, S. D., May 12.—Led by a "prophet's" lurid promise to South Africa, a party of South Dakota people is now stranded there. They have turned upon their leader, denouncing him as a fakir, according to letters just received from some of them. They left the latter part of last November, induced to take this step by Harry Hendrickson, who claimed to have learned by a vision that if his followers would sell all worldly possessions and depart for South Africa, the Lord would provide for them there. They now want to return to the United States.

BAD STORM IN INDIANA.

Two Persons Killed and Several Others Injured.

Indianapolis, May 12.—Two fatalities, several minor injuries and serious damage throughout the state resulting from an extraordinary rain and electric storm, accompanied by high winds and hail are reported in dispatches from cities throughout Indiana at night. Ernest Johnson was killed by lightning at Nora, while Edward Martin, a laborer, is dead from the same cause at Union City. Hail inflicted serious damage upon crops.

Minnesota Pioneers Meet.

St. Paul, May 12.—The forty-seventh anniversary of the admission of Minnesota into the Union was celebrated by the state capital during the day by the Minnesota Territorial Pioneer association. Several hundred members were present. Officers were elected as follows: President, C. F. Staples, Hastings; first vice president, F. G. O'Brien, Minneapolis; second vice president, Judge E. W. Bazille, St. Paul; secretary, G. H. Hazzard, St. Paul; treasurer, W. J. Dean, Minneapolis.

GOVERNOR CUMMINS FESTIVITIES.

Gives His Views on Railway Legislation to Senate Committee.

Washington, May 12.—Governor A. E. Cummins of Iowa testified during the day before the senate committee on interstate commerce, which is considering railroad legislation. He criticized the statement by railroad men that rates were low enough now and the impression he said they endeavored to convey that the object sought was to give power to the commission to fix all rates. He claimed that there was nothing unjust in giving the commission the power which the proposed legislation would confer upon it to correct an unreasonable and discriminatory rate between kinds of traffic and localities. He advocated the establishment by congress of a tribunal to give business competitors a square deal in securing transportation to markets and cited Dubuque and Fort Dodge as among cities discriminated against. He said that badly adjusted railway rates had removed Iowa's chances of becoming a manufacturing state.

ARRIVES IN WASHINGTON.

President Roosevelt Returns Home From His Western Trip.

Washington, May 12.—President Roosevelt reached home at midnight from his Western trip, which he regards as one of the most enjoyable journeys he has taken since he has been president. He traveled 6,000 miles and passed through twelve states and three territories.

Two Trainmen Killed.

Warren, Pa., May 12.—In a crash between three locomotives on the Philadelphia and Erie division of the Pennsylvania railway two trainmen were killed and fireman Souers fatally injured. One of the heavy engines cast-bound broke down and two others collided with it.

Two Killed in Ohio.

Columbus, O., May 12.—Reports of severe storms come from various parts of the state. At Waverly, a cloud burst did considerable damage. Frank Westfall was killed by lightning. Royal Mathias, living near New Philadelphia, was killed by lightning. Many were stunned.

Negotiations Toward Peace.

Ladysmith, Wis., May 12.—It is said negotiations toward peace between the Mississippi Logging and Boom company and John Dietz have been started, the logging company taking the initiative and that prospects look fair for an early settlement.

TELEGRAPHIC BREVITIES.

The twenty-fourth general conference of the United Brethren church was formally opened at Topeka, Kan., Thursday.

A tornado struck Hampton, Mo., Wednesday night. Several persons were injured. Stores and residences were demolished.

Frank C. Gibson, president of the Wisconsin Anti-cigarette league, died Thursday night at Kenosha, Wis., after a long illness from consumption.

Officials of the Rockmen and Excavators' union say New York will have a strike of 26,000 of these men on its hands before the middle of next week.

GERMANY'S BLACK LETTER.

Comparison of Texts Used in Printing in the Fatherland.

"It is remarkable that so practical a people as the Germans should continue to use their blind black letter," says Jerome Hart. "The German text is ugly, and when printed from small type on dingy paper with high speed presses, as is the case with most daily newspapers, it is difficult to decipher. Ever since the days of Cadmus alphabets have been designed to convey ideas, and those alphabets which transfer thought with the most quickness, clearness and precision are the best. Considered from these standpoints the German alphabet is one of the worst. That it is a failure is shown unconsciously in many ways. Advertisers, for example, have no sentiment about them. They want to reach the reader and reach him quickly. Therefore nearly all the display advertisements in German newspapers are printed in Latin characters.

"So, too, with the commercial and financial pages. Stockbrokers and merchants have no time to waste in deciphering badly printed German text. Therefore the commercial page in the German dailies is now nearly always set up in Roman type. Circus advertisements, theater placards and advertising posters generally, the names of streets on the corner signs, the lettering on cars and omnibuses, even temporary signs, such as 'No Thoroughfare' or 'Street Closed,' you nearly always see in Latin characters.

"Another proof of the inferiority of the German text is the fact that nearly all German scientific works are printed in Roman. This has been the case for years, but it has had little effect on the printing of books of a general nature. Bismarck did much to retard this needed improvement, for he clung stubbornly to the German text and frequently sent back books which were printed in Roman, refusing to read them."—New Orleans Times-Democrat.

FLOUR IN CHINA.

There It Is Made of Almost Everything Except Wheat.

The Chinese cook stuck the end of an ivory chopstick into a small brown biscuit.

"Taste, sir," he said.

The biscuit was warm, crisp, rich; it was light, well salted, nutritious—a biscuit, in a word, of peculiar excellence.

"This biscuit, sir, is made of flour of lentils," said the Chinaman. "You know lentils? Little green pellets slightly flattened like split peas. Lentils are considered the most nutritious of all the foods of the earth. This one lentil biscuit, sir, is equal in nourishing power to a pound and a half of roast beef."

He took from a tin a little cake.

"Again taste," he said.

The little cake was rich and good. "It is made, sir, of the flour of almonds," said the cook—"fresh, sweet almonds ground into a white powder between two millstones. Such a flour is a finer thing than your flour of wheat, eh?"

Then he lifted a great lid and revealed some thirty or forty compartments, one filled with a pink flour, another with a yellow one, a third with a brown one, a fourth with a white, a fifth with a pale green, a sixth with a blue, and so on.

"All these are Chinese flours," he said. "In China, sir, we make over fifty kinds of flour. We make flour out of potatoes, out of sweet potatoes, out of peas, out of coconuts, out of millet out of pulse, out of oats, out of bananas—the fact is, sir, we make flour in China out of everything but wheat, for in China, sir, we eat no bread, and therefore the coarse, dry, tasteless flour of wheat is useless to us."—Philadelphia Bulletin.
